Notice Regarding Changes to the IDPA Series Specifications

We would like to inform you that, due to the discontinuation of certain components used in our products, we have had to amend the specifications of some of our products.

-Details-

1 . Target Products

- IDPA-50M6 series
- IDPA-100M6 series

*Includes custom-specification products.

2 . Changes

Due to changes in the components used in the product, the pulse width of the current during light emission will change.

The linearity during dimming will change.

3 . Reason for the change

Due to the discontinuation of production of the components used in this product,

4 . Switchover Period

From the January 2027 shipment onwards

*Please note that the timing of any changes may vary depending on sales conditions.

If you have any questions, please contact our sales representative.

【Old vs New: Product Appearance】

【Product Appearance】

There are no changes to the exterior.
